VS CODE THEME OR EXTENSION

1. **Black Box or AI Code Generator**: Generates code snippets using AI.
2. **Code Search**: Helps in searching code across files and repositories.
3. **Codium**: An open-source version of Visual Studio Code.
4. **Code Snap**: Captures and shares code snippets as images.
5. **Docker**: Manages Docker containers and images.
6. **Docx Reviewer**: Reviews and edits DOCX files.
7. **Excel Reviewer**: Reviews and edits Excel files.
8. **GitHub Copilot**: AI-powered code completion and suggestions.
9. **GitHub Copilot Chat**: Provides an interactive chat interface for GitHub Copilot.
10. **GitHub Copilot Theme**: A theme inspired by GitHub Copilot.
11. **IntelliCode API Usage**: Provides API usage examples and recommendations.
12. **Jelly Fish Theme**: A colorful and vibrant theme for VS Code.
13. **Jupyter Notebook**: Supports Jupyter Notebooks within VS Code.
14. **Markdown All in One**: Enhances Markdown editing with various features.
15. **PDF Reader**: Reads and views PDF files.
16. **Python**: Adds support for Python development.
17. **R**: Adds support for R programming language.
18. **Vocode Icon**: Provides a set of icons for VS Code.
19. **Vocode PDF**: Manages and views PDF files.
20. **Debugger for Firefox**: Debugs JavaScript code in Firefox.
21. **Get Lens**: Provides a lens view for code navigation.
22. **HTML Viewer**: Previews HTML files.
23. **IntelliCode**: AI-assisted code recommendations.
24. **Jupyter Cell Tags**: Manages cell tags in Jupyter Notebooks.
25. **Jupyter Keymap**: Provides keybindings for Jupyter Notebooks.
26. **Jupyter Notebook Renders**: Enhances rendering of Jupyter Notebooks.
27. **Jupyter Slide Show**: Creates slide shows from Jupyter Notebooks.
28. **Markdown PDF**: Converts Markdown files to PDF.
29. **Markdown Shortcut**: Adds shortcuts for Markdown editing.
30. **Markdown Lint**: Lints Markdown files for style and syntax.
31. **Microsoft Edge Tool for VS Code**: Integrates Microsoft Edge for web development.
32. **PDF Viewer**: Views PDF files.
33. **Prettier**: Formats code for consistent style.
34. **Python Debugger**: Debugs Python code.
35. **Rainbow CSV**: Highlights CSV columns in different colors.
36. **Simple CSV Editor**: Edits CSV files.
37. **SVG Viewer**: Previews SVG files.
38. **VSCode Icon**: Adds icons for various file types.
39. **VSCode PDF**: Manages and views PDF files.
40. **DeepSeek**: Integrates AI to help you write, review, explain, refactor, and test code.

FOR PROMPT ENGINEERING

1. **PERPLEXITY**
2. **CLOUD AI (OPERA BROWSER)**
3. **CHATGPT**
4. **GOOGLE BARD**
5. **BING AI**
6. **POE**
7. **ILAMA META PERPLEXITY**
8. **HUGGING FACE**
